INTRODUCTION

The 2003-04 Estimates set out details of the operating and capital spending requirements of ministries for the year commencing April 1, 2003 and constitute the Government's formal request to the Legislature for approval of the amounts involved. Once approved by the Legislature in the Supply Act, the Estimates become the legal spending authority for each ministry.

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

The services or Programs which ministries are responsible for delivering are each identified by a unique vote number within the Estimates. Votes in turn are sub-divided into items or activities in order to distinguish between their different functions. This program/activity structure permits the Legislature to be more specific in appropriating funds to particular services. Within each activity, expenditures are shown by standard account, i.e. salaries and wages, employee benefits, transportation and communication, services, transfer payments etc. (see explanatory notes on page vi).

For comparative purposes, Estimates and Actual amounts for prior years are provided on program summary and activity summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred. Reconciliation to previously published data is shown on each Ministry's program summary page to relate previously published Estimates and Public Accounts actuals to any restated amounts.

Consolidation and other adjustments are provided on each Ministry program summary page. These adjustments represent the components of total spending presented in the annual Budget that are not included in the spending requests set out in the Estimates and include spending by the Province's agencies, boards and commissions that will not be funded by the Province.

Commencing in 2003-04, Estimates are presented on the accrual basis of accounting. Information for 2002-03 and earlier years is presented on the modified cash basis, and therefore direct comparison between 2003-04 and earlier years may not be meaningful.

On the accrual basis of accounting, costs are recorded as goods and services are received rather than when payments are made. Differences between cash and accrual relate to adjustments such as timing of transfer payments and provisions for bad debts that would increase or decrease the 2002-03 amounts had they been presented on the accrual basis. These 2002-03 adjustments are indicated by superscripted references and are explained on reconciliations of 2002-03 Estimates from cash to accrual, as applicable, following each Ministry Summary.

Note on Cost-Recovery Activities

In cases where the anticipated recovery of costs of an activity is equal to or greater than the expenditures, the balance of the activity is shown at the nominal value of \$1,000.

Note on Special Warrants

Special Warrants are issued to authorize payments for the purpose of general and necessary government expenditures when the Legislature is not in session. The amounts provided by Special Warrants in the 2003-04 fiscal year were deducted from the total for each program to determine the amount to be voted.

Schedule of Net Investment in Capital Assets – Reconciliation to 2003 Budget Plan**Notes:**

1. Starting in 2002-03, major tangible capital assets owned by Provincial ministries (land, buildings and transportation infrastructure) are accounted for on a full accrual accounting basis. Other tangible capital assets owned by Provincial ministries will continue to be accounted for as expenditure in the year of acquisition or construction. All capital assets owned by consolidated government organizations are accounted for on a full accrual basis.
2. Land and buildings are primarily owned by Management Board Secretariat. The investments in land and buildings are made by the Ontario Realty Corporation on behalf of Management Board Secretariat and other ministries. The acquisition/construction of land and buildings and related amortization expenses are not shown in the capital estimates of Management Board Secretariat. For 2003-04 acquisition / construction of major tangible capital assets in respect to government-owned land and buildings is \$132,529,600. Amortization is \$110,000,000.
3. Investments in transportation infrastructure are made by Ministry of Northern Development and Mines and Ministry of Transportation. The acquisition/construction of transportation infrastructure is included in Ministry of Transportation's capital assets; for 2003-04 this amount is \$1,041,900,000. The amortization of provincially owned transportation infrastructure is included in Ministry of Transportation's capital expenses; for 2003-04 this amount is \$545,900,000.
4. Investments in government organizations' capital assets are included in various ministries responsible for the organizations. Acquisition/construction charges related to government organizations' capital assets are included as transfer payments and net consolidation adjustments in corresponding ministries, and these amounts are reversed and replaced by the amortization expense of government organizations as reported in the Schedule of Net Investments in Capital Assets. In total, the acquisition / construction of major tangible capital assets for all Government Organizations for 2003-04 is \$345,682,000. Amortization related to government organizations' capital assets are not included in the Estimates; for all Government Organizations the total amortization expense for 2003-04 is \$163,254,000.

MINISTRY OF THE ATTORNEY GENERAL

SUMMARY

The goal of the Ministry of the Attorney General, together with its justice sector partners, is to build a province where all communities are safe and secure - supported by accountable, efficient, effective and accessible justice and public safety systems. The Ministry has five core businesses: prosecuting crime and preserving public order and personal safety; providing support to victims of crime throughout the criminal justice system; providing courts and related justice services that are fair, timely and accessible; providing decision-making and justice support services to vulnerable people; and providing legal advice and services to government.

The Ministry of the Attorney General is responsible for managing the administration and delivery of justice services to all communities in Ontario. The Ministry co-ordinates the administration of criminal, civil and family court services, operating a network of more than 250 court offices and providing courtroom and judicial support services. The Ministry is building integrated and enhanced services to victims of crime by providing a range of victim services such as the Victim/Witness Assistance Program. Other programs provided by the Ministry include the Public Guardian and Trustee, the Children's Lawyer and Supervised Access. In addition, the Ministry provides expert legal services to government ministries, agencies, boards and commissions, including advice to the government on constitutional questions and civil litigation conducted on behalf of the Crown. The Ministry also provides support and policy direction to provincial gaming initiatives. Agencies, boards and commissions that are overseen by the Ministry include the Criminal Injuries Compensation Board, the Office for Victims of Crime, the Assessment Review Board, the Ontario Municipal Board and the Ontario Lottery and Gaming Corporation. CABINET OFFICE

SUMMARY

The Cabinet Office is the central agency which supports the Premier, Cabinet and its Committees in their efforts to set the broad directions and priorities of the Government, and in the determination of its legislative program. It co-ordinates the government's policy initiatives and provides support to the Premier and Cabinet on Order-in-Council appointments, Premier's Correspondence, Freedom of Information requests and other administrative issues. The primary clients served by the Office are the Premier, Cabinet and other central agencies and line ministries; however, some functions (such as Orders-in-Council, Freedom of Information and Premier's Correspondence) have direct contact with the public.

The Cabinet Office also provides administrative/operational support to the Office of the Premier and for other organizational units not directly attached to ministries, such as the Office of the Government House Leader.

ALCOHOL AND GAMING MANAGEMENT PROGRAM :

This program establishes the regulatory framework and sets and enforces standards in specific business sectors through the Alcohol and Gaming Commission of Ontario. It maintains a database of consumer complaints, inspects and investigates questionable business practices, and takes enforcement measures when necessary. It also serves a compelling need for consumer protection or standards in industries where the risks of criminal activity and potential social costs are high (e.g. casino gambling, beverage alcohol).

TAX POLICY, BUDGET AND REVENUE OPERATIONS PROGRAM :

This program has two components, Budget and Taxation Policy, and Tax Revenue. The Budget and Taxation Policy area advises and assists the Minister of Finance and the Government in formulating Ontario Budget policy including tax policy, tax design and legislation, federal-provincial finance policy and pension and income security policy; develops the Ontario Budget and other major economic/fiscal documents; manages the Province's taxation, intergovernmental finance and related policy development; co-ordinates research to identify broad economic taxation and fiscal implications of specific and emerging trends and developments.

The Tax Revenue area administers Ontario's tax statutes. The integrity of the province's self-assessment system is maintained by encouraging compliance through taxpayer information services and independent objections review, while discouraging non-compliance and tax evasion through collection activities, audits and investigations. The program also administers various tax credit and benefit programs.

FINANCIAL SERVICES INDUSTRY REGULATION PROGRAM :

The Financial Services Commission of Ontario (FSCO) provides for the regulation of insurance, pension plans, loan and trust companies, credit unions and caisses populaires, mortgage brokers and co-operative corporations by delivering efficient and effective regulatory services that protect consumers of financial services and support a reliable, dynamic and competitive industry. FSCO also makes recommendations to the Minister on matters affecting the regulated sectors. In addition, the Motor Vehicle Accident Claims Fund (MVACF) compensates persons injured in automobile accidents in Ontario by an uninsured, unidentified or stolen vehicle where there is no other insurance available to respond to the claim. Securities regulation in Ontario is performed by the Ontario Securities Commission (OSC). On November 1, 1997, the OSC became a self-funding agency, financing its operations through retention of its fee revenues.

LABOUR RELATIONS PROGRAM :

The role of Labour Relations is to promote a stable labour relations climate and harmonious workplace relationships in the Province.

The Ontario Labour Relations Board (OLRB) is an independent, quasi-judicial tribunal which mediates and adjudicates a variety of employment and labour relation-related matters under various Ontario statutes. The OLRB is responsible for, amongst other things: certification of trade unions, termination of bargaining rights, unfair labour practice applications, sale of business related employer applications, illegal strikes and lock-outs, both in the construction and non-construction sectors. The OLRB also generally ensures minimum workplace standards through the review of decisions of employment standards officers and occupational health and safety inspectors, as well as mediating and arbitrating other labour and employment disputes with a view to promoting safe, fair and harmonious conditions in Ontario's workplaces.

The two statutory tribunals comprising the Public Service Appeal Boards are independent quasi-judicial tribunals that oversee the labour relations of Ontario Crown employees. They include the Crown Employees Grievance Settlement Board and the Public Service Grievance Board.

The Labour Management Services program provides neutral, third party assistance to trade unions and employers through collective agreement conciliation and mediation, appointment of arbitrators and collective bargaining information.

The Occupational Health and Safety program secures compliance with the *Occupational Health and Safety Act* (the Act), and assists in securing a healthful and safe working environment. Through the administration and enforcement of the Act and regulations, it encourages employers and workers to cooperatively identify and control health and safety hazards.

The Office of the Worker Adviser and the Office of the Employer Adviser provide advisory and educational services to non-unionized injured workers and smaller employers with less than 100 employees (respectively), and represent them before the Workplace Safety and Insurance Board and the Workplace Safety and Insurance Appeals Tribunal.

SMART GROWTH PROGRAM :

Smart Growth is the government's vision for promoting and planning for growth in ways that create strong economies, build vibrant communities and promote clean and healthy environments. The Smart Growth Secretariat supports the work of five Smart Growth panels across Ontario. The panels are advising the government and building consensus amongst stakeholders and the public on long-term strategies for promoting and managing growth across the five zones in Ontario. The strategies will articulate a long-term vision for each zone over the next 30 years. The strategies will also offer ways to better coordinate decisions on infrastructure, transportation, land use planning, economic development and other issues associated with growth.

MINISTRY OF NATURAL RESOURCES

NATURAL RESOURCE MANAGEMENT PROGRAM :

The Natural Resource Management Program strives to achieve a balance between natural resource use and protection, to ensure the recognition of a broad range of natural resource values, and to develop mechanisms for open decision-making and efficient program delivery. The major program areas include forest management, fish and wildlife management, Crown land and water management, Ontario Parks (i.e. provincial parks and other protected areas), and field services support. This program also includes the implementation of Ontario's Living Legacy and the management of non-renewable resources such as aggregates, natural gas, petroleum and brine (i.e. salt). The Ministry's infrastructure (i.e. capital) activities rest largely within this program area.

TOURISM PROGRAM :

The Tourism Program seeks to increase investment in Ontario's tourism industry by developing appropriate tools to foster the right business climate. Activities include providing the industry with strategic information and analysis, facilitating partnerships to strengthen competitiveness and improve service quality, and working with the industry stakeholders and other ministries to identify tourism development opportunities. The Program also markets Ontario as a year-round world-class travel destination, operates key tourism information centres across Ontario, and manages provincially owned tourism attractions and convention centres.

MINISTRY OF TRANSPORTATION

SUMMARY

Transportation is a cornerstone for economic prosperity and a strengthened quality of life. Much of what we value, our jobs, our health, our education, our leisure time, are all impacted by the quality and availability of transportation. Similarly, Ontario businesses depend on this same system to move goods and people efficiently and competitively, particularly in the current climate of just in time delivery.

The Ministry of Transportation (MTO) supports a positive business climate and quality of life by building and maintaining a safe, balanced and integrated transportation network. In this regard, the ministry is pursuing ways to make public transit a viable alternative to the personal automobile by promoting convenience and accessibility. As well, the ministry is working to ensure that Ontario's transportation infrastructure is renewed, strategically expanded where appropriate and that investments to date are protected - and that this is carried out in an environmentally sensitive manner.

The Ministry is also pursuing new and innovative technologies to ensure that our programs and services meet people's needs, and that transportation continues to support job creation, tourism, business investment, trade and a high quality of life into the 21st century.

TRANSPORTATION POLICY AND PLANNING PROGRAM :

The primary focus of the Transportation Policy and Planning (TP&P) program is to plan and promote a safe, efficient and reliable multi-modal transportation system that enhances Ontario's economic competitiveness and quality of life. To achieve this, the program provides leadership in the setting of strategic policy directions for the ministry as part of its integrated long-term planning and works to enable a supportive policy and regulatory environment.

TP&P engages stakeholders and other partners in planning and supporting the development of an integrated transportation system that promotes efficiency, safety and economic competitiveness. It seeks opportunities to foster new partnerships with federal and municipal sectors and innovative delivery options that promote private sector investment in transportation based upon Made-in-Ontario Smart Growth principles. Together with SuperBuild, the program continues to identify opportunities for further partnerships to build new infrastructure and enhance the integration and efficiency of Ontario's transportation network. At the same time, the program continues to manage the province's public/private partnership with the 407ETR.

ROAD USER SAFETY PROGRAM :

This program contributes to the improvement of road safety and mobility through the promotion and regulation of safe driving behaviour. The key objective is to reduce death and injury on our roads by developing, promoting and participating in road user safety programs. It also promotes the effectiveness and efficiency in the delivery of its programs.

To this end, the key safety responsibilities of the program are to: set safety standards, develop and evaluate policies, programs and regulations for road users, carriers and vehicles; inspect, monitor and enforce compliance with those standards; licence drivers and vehicles; and to work with a broad range of partners to educate road users about safe driving behaviours and road user safety policies, laws and programs.

The program is responsible for managing and improving customer service by setting standards and monitoring performance of service delivery, promoting government products through Electronic Service Delivery for Individuals and the private and not for profit sectors. The management of information on every driver, vehicle and commercial carrier in Ontario is an inherent responsibility. The program is also responsible for facilitating the delivery of core programs for other ministries (e.g., Drive Clean).

TRANSPORTATION INFORMATION AND INFORMATION TECHNOLOGY CLUSTER PROGRAM :

The Transportation Information and Information Technology Cluster (I&IT) provides leadership in the use and deployment of information technology for the Ministry of Transportation (MTO), and enables the delivery of the ministry's core businesses through effective management of the ministry's information and information technology resources. The cluster focuses on planning MTO's I&IT investments and delivering quality service to clients while continually measuring and improving its performance. To enhance program delivery, enable new business, and ensure improved customer service through e-Government, the cluster continues to modernize the ministry's systems and platforms. MTO's information and information systems benefit internal MTO clients as well as external stakeholders such as other ministries and private sector partners (delivered through MTO's core businesses). As such, I&IT manages the ministry's information and information systems as major business assets.

INTRODUCTION

The 2003-04 Estimates set out details of the operating and capital spending requirements of ministries for the year commencing April 1, 2003 and constitute the Government's formal request to the Legislature for approval of the expenditures involved. Once approved by the Legislature in the Supply Act, the Estimates become the legal spending authority for each ministry.

The services or Programs which ministries are responsible for delivering are each identified by a unique vote number within the Estimates. Votes in turn are sub-divided into items or activities in order to distinguish between their different functions. This program/activity structure permits the Legislature to be more specific in appropriating funds to particular services. Within each activity, expenditures are shown by standard account, i.e. salaries and wages, employee benefits, transportation and communication, services, transfer payments etc. (see explanatory notes on page vi).

For comparative purposes, Estimates and Actual amounts for prior years are provided on program summary and activity summary pages. These amounts are restated to provided comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred.

A reconciliation statement is shown on each Ministry's program summary page to relate previously published Estimates and Public Accounts actuals to any restated amounts.

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

EXPLANATORY NOTES

NOTE: Expenditure is forecast for the fiscal year 2003-04 under eight Standard Accounts at the activity level. The descriptions of the contents of the Standard Accounts given below are intended to serve as brief outlines only and should not be considered all inclusive.

Note on Statutory Appropriations and Loans and Investments

Statutory Appropriations and Loans and Investments are not Standard Accounts. Amounts required for Statutory Appropriations and Loans and Investments are shown, where applicable, as separate entries under the Standard Accounts Classification details relating to each Activity.

Note on Cost-Recovery Activities

In cases where the anticipated recovery of costs of an activity is equal to or greater than the expenditures, the balance of the activity is shown at the nominal value of \$1,000. Recoveries in excess of expenditures, where these occur, will be added to general revenue.

Note on Special Warrants

Special Warrants are issued to authorize payments for the purpose of general and necessary government expenditures when the Legislature is not in session. The amounts provided by Special Warrants in the 2003-04 fiscal year were deducted from the total for each program to determine the amount to be voted.

OMBUDSMAN ONTARIO

SUMMARY

The role and responsibilities of the Ombudsman are set out in the *Ombudsman Act*.

The Ombudsman investigates and resolves complaints about the Provincial government, its agencies, boards, commissions or tribunals and recommends corrective action to be taken in those cases in which the Ombudsman decides that there is substance to the complaint. These concerns may be raised by individuals or on the Ombudsman's own motion because of some action that has been taken or neglected to be taken by an official, or from some decision or recommendation which is alleged to be unfair, unreasonable, or arbitrary.

The Ombudsman is an officer of the Legislature and is independent of both the political process and the government administration. The Ombudsman submits an annual report to the Legislature and can issue special reports as appropriate. Ombudsman Ontario services are provided throughout the province, toll-free numbers are available to the public and corporate communications are designed to inform the public about the Ombudsman's services, particularly with those sectors of the public least likely to know about such services. All services are free to the public and information received is kept confidential.
